About Company

Built on Purpose. Powered by Women.

Founded in 2019, African Synergy Projects (Pty) Ltd was established with a clear purpose: to build a dynamic procurement, supply and project solutions company that delivers exceptional service while contributing to meaningful economic transformation in South Africa.

From our base in Pinetown, KwaZulu-Natal, we support clients across the province and beyond with reliable sourcing, supply, logistics and project support. Our capabilities extend across general procurement, power solutions, construction and renovations, electrical equipment, marine components, and specialised industrial supply.

We combine strong supplier relationships, responsive service and hands-on project management to ensure every requirement is delivered with a focus on quality, reliability, compliance and value.

As we continue to grow, our commitment remains simple: to become a trusted supply and project partner that helps businesses, government institutions and communities move forward.
